| Test begin - end date | 15/02/22 - 22/02/22 |
| Document issued on | 22/02/22 |

Dear

MAIMI PAINT S.L.

DIV. MAIMI PAINT S.L.

Calle Ciudad de Sevilla, 5
46988 PATERNA
SAMPLE IDENTIFICATION (#):
A Candy Apple Red. VIKING BY DYNAMIC
THIS DOCUMENT CONTAINS THE FOLLOWING TESTS:

| Code | Test | Test Method |
|----------|---|---|
| CE0038 | Tattoos inks and PMU: determination of heavy metals (reg. UE 2020/2081) | MIP_CE0038_rev1:2021 |
| CE0073 * | Tattoos Inks and PMU: determination of certain aromatic amines | MIP_CE0073_rev0:2021 - ref. Reg. (EU) 2020/2081 |
| CE0082 | Tattoo Inks, PMU and polymers: Determination of Polycyclic Aromatic Hydrocarbon | AfPS GS 2019:01 |

General Remarks

Results refer exclusively to the materials presented by the Client as received; TIL does not carry out withdrawals and / or samplings and, therefore, any representativeness of the analyzed material, also with respect to lots, is exclusive responsibility of the customer.

(#) Data provided by the Client. Moreover, when information is provided by the Client and can influence the validity of the results, the Laboratory declines all responsibilities.

The expanded uncertainty, available on request, is calculated with a coverage factor $k=2$ for a confidence level of 95%.

For qualitative tests, or tests where final result is assessed by numerical indexes, the expanded uncertainty is not applicable.

Materials delivered to TIL will be kept available to the Customer for a period of 3 (three) months after completion of the Services; after this period all materials will be disposed of by TIL.

This document cannot be partially published or reproduced without written authorization of the Laboratory Management.

Decision rule

Unless otherwise requested by the customer, for physical-mechanical tests, flammability tests and fastness tests, Laboratory defines the Pass/Fail assessment not taking into account the uncertainty associated to the measurement result. Uncertainty of method is available on request.

For all other types of tests, where the decision rule is not defined within the test method, laboratory use a decision rule based on "guard band" approach. The rule is described in the "conformity analysis" procedure adopting a coverage factor K unilateral equal to 1,645 for a confidence level of 95%.

* Test not accredited by ACCREDIA

Technical Manager

Giuseppe Bartolini
